

8BRIX VERJUS RED NUTRITIONAL DATA SHEET

MINUS8
VINEGAR & VERJUS

8 Brix Verjus RED: "ice" verjus, made with the juice of Minus 8 icewine grapes. Several varieties of premium wine grapes are hand-picked at five intervals beginning in August (sourest) and ending usually in January at icewine harvest (sweetest). We pick grapes that are naturally frozen on the vine and press them while they are still frozen. There is no alcohol or acetic acid in verjus.

The juices are blended by taste. Keep in mind that while the quality for our verjus is always high, they are small batch agricultural products subject to slight variations due to the changing character of the vintage each year.

This is fun to drink when served lightly chilled. Would serve as a great condiment and be a wonderful addition to your cooking repertoire. Chefs and mixologists will find endless uses for this inimitable product. We are told that it is a fantastic base for sauces, dressings and marinades and is the secret ingredient in many inspired bar creations.

L8 HARVEST VINEGAR NUTRITIONAL DATA SHEET

MINUS8
VINEGAR & VERJUS

L8 Harvest Vinegar is made from icewine. Icewine is made by harvesting grapes in winter when they are naturally frozen on the vine. The grapes are frozen solid when they are picked and when they are pressed. The juice is rich in flavour, natural sugars and grape acids. The icewine is finished, and then converted into vinegar. This step takes months in temperature controlled tanks - important for keeping the true taste of icewine all the way through to the bottled vinegar. L8 Harvest Vinegar is bottle aged.

MAPLE BRIX (SMALL BATCH VERJUS) NUTRITIONAL DATA SHEET

MINUS8
VINEGAR & VERJUS

Sour and fruity pure premium Minus 8 grape musts are blended with the best Québec maple syrup. Several varieties of premium Minus 8 grapes are hand-picked while they are sour, and at several more intervals during the growing season when the taste of the natural grape juices develops in flavour and sweetness.

The best tasting (in our opinion) pure maple syrup from Québec was made for us, to use for Maple 8 Vinegar, and here for Maple Brix. The maple syrup is blended with the Minus 8 grape juice to make Maple Brix. It does not contain any vinegar (acetic acid). Refrigerate Maple Brix after opening. Keep in mind that while the quality for our verjus is always high, they are small batch agricultural products subject to slight variations due to the changing character of the vintage each year.

Icewine vinegar named for the temperature at which the grapes are harvested and pressed. Barrel aged for years in a French oak Solera system started in 1997. Icewine is made by picking grapes that are naturally frozen on the vine and pressing them while they are still frozen. The yield is very limited but the juice is rich, naturally sweet and full of flavour. Keep in mind that while the quality for Minus 8 is always high, they are small batch agricultural products subject to slight variations due to the changing character of the vintage each year.

ORIGINAL BARREL MINUS8 VINEGAR NUTRITIONAL DATA SHEET

MINUS8
VINEGAR & VERJUS

A rare treasure that is drawn from the first ever barrel of Minus 8 made in 1997. It is said that nothing great comes without sacrifice. Every year that this nectar slumbers in its barrel, a portion evaporates. The amount that is lost through this process is called the "angels' share." Fortunately, there is a tradeoff; for what is lost in terms of quantity is gained in ever increasing concentration and complexity. The small amount that is left for bottling is truly a heavenly treasure.

This incredible vinegar seems even more complex than a great wine, each time you approach it you pick up something else! We are only able to release this precious elixir in small limited batches. This is something that must be savoured by the drop — that's why we give you a dropper.

VEGET8 VINEGAR NUTRITIONAL DATA SHEET

MINUS8
VINEGAR & VERJUS

Made from Cabernet Franc icewine, San Marzano and Roma tomatoes. We grew our grapes in a way that brought out the naturally vegetive characteristics of Cabernet Franc grapes, made icewine, then vinegar. We made vinegar from local gorgeous tomatoes. Then we blended the two to make Veget8 vinegar. Pure fruit, that tastes like vegetables.

PAW PAW BRIX INFORMATION SHEET

MINUS8
VINEGAR & VERJUS

Paw Paw Brix Verjus: While all our Minus 8 offerings are crafted in small limited productions, this is probably our rarest and most limited offering yet.

Paw paw is an unusual fruit, often called "North America's tropical fruit," and only available in tiny quantities. The small local orchard of Paw paw fruit trees came into its long-anticipated production this year. The fruit was hand-picked and painstakingly processed by hand, yielding minuscule quantities of juice, making this a labour of love. But one taste and you will experience why the effort was worth it.

A fruity wave of mango, passionfruit, banana and melon with an undercurrent of grape rolls over the palate. The aromas transport you to the islands. Blended with our white verjus which uses the full flavour potential of premium hand-selected grapes, Paw Paw Brix is a powerhouse of flavour.

The juices are blended by taste. Keep in mind that while the quality for these products is always high, they are small batch agricultural products subject to slight variations due to the changing character of the vintage each year.
